Vitamin B1	3 500 mg	Cobalt (sulphate)	50 mg
Vitamin B5	7 500 mg	Amino-acids / Kg	
Vitamin B6	1 750 mg	Lysine HCL	1 000 mg
Vitamin B12	5 mg	DL methionine	1 000 mg
Folic acid	500 mg	Others elements / Kg	
		Dextrose	QSP 1 Kg

### **TECHNICAL INTEREST**

**AVIMINO** brings vitamins, trace-elements and amino-acids to meet needs of poultry at any stage of their development, avoiding deficiencies that can impact severely the general growth and production performances of the poultry. **AVIMINO** is highly soluble in water, through dextrose as carrier, for a good intake and a better availability of the nutrients inside the digestive tract

**AVIMINO**<sup>®</sup> contains most vitamins from B group which play a key role in the stimulation of reproduction functions and on the quality of skin and feathers. **AVIMINO**<sup>®</sup> improves immunity (vit E) and vaccination response (trace-elements).

### **DIRECTIONS FOR USE**

Mix **AVIMINO**® in the water at the following concentration and dosage:

- Broilers: 1 g in 2 litre of water, 5 consecutive days from day 7<sup>th</sup> to day 12<sup>th</sup>, a 2<sup>nd</sup> application can be done from day 21<sup>st</sup> for 3 to 5 days.
- Layers: 1 g in 2 litre of water during the 1st week of laying during 3 to 5 days, renew the application during the week of the laying peak.
- After vaccination: 1 g in 2 litre of water during 3 days.

#### SHELF LIFE

24 months after the date of manufacturing.

#### **OTHERS INDICATIONS**

Storage in a dry place, away from humidity.
